● skill level

installation instructions

1. Run the **fixture wires** from [A] through the **downrod+canopy sub-assembly** [B] as shown.
2. Connect [A] to [B] by threading pieces together tightly as shown.
3. With all sub-assemblies connected, secure connection(s) by tightening **set screws** in **coupler** using provided **tool**.
4. Follow instructions according to "Screw Collar Canopy Fixtures Installation Instructions" to mount the fixture to ceiling using the crossbar.
5. Make the wiring connections in accordance with local electrical codes. See "Important Information" on reverse side.
6. Once fixture is installed and canopy is in place, flush to ceiling, you are ready to install the shade. See sheet 2.

installation instructions

1. Install the **shade** onto the **fitter sub-assembly [A]** as shown. Make sure the hanger is oriented 90 degrees from fixture arms in order to install top shade.
2. Lift fitter nut and fitter to place top shade on hanger. When shade is installed on hanger, secure shade by sliding down fitter and fastening fitter nut to exposed thread so top shade does not rattle.

*Note if shade does not sit level or has visible gaps repeat steps 1 and 2 until shade sits level or without visible gaps.

3. Connect lower shade [A] to fixture [B] by threading pieces together tightly as shown.

*NOTE: It is recommend this step require at least two people. One person to hole the shade and fitter ring and one person to hand tighten the knurled thumb nuts.
