

Installation sheet flush ceiling LED fixture

skill level

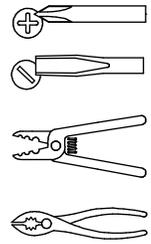

• basic electrician

installation instructions

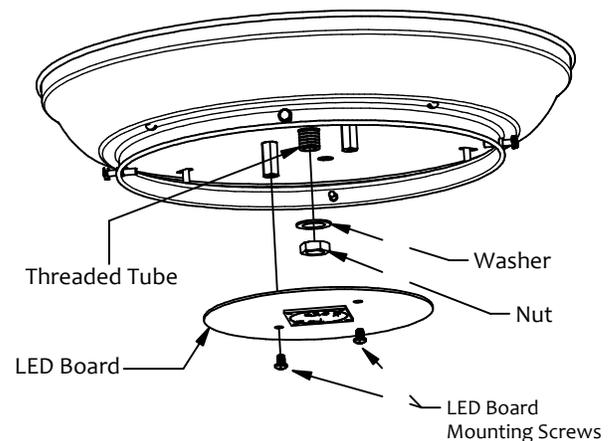

1. The fixture will arrive with the threaded pipe installed onto the fixture and the crossbar install on the threaded pipe. Remove the crossbar and one nut from the threaded pipe.
2. Attach the crossbar to the electrical box screwing in the threaded pipe at least two complete turns.
3. Lock the threaded pipe into position by tightening the nut against the crossbar,
4. Remove one of the screws tha hold the LED board in place. Loosen the other screw and swing the LED board to the side.
5. While holding the fixture close to the ceiling, make the wiring connections in accordance with local electrical codes. See "Important information" on the reverse side.
6. Slip the fixture over the threaded pipe so that the pipe extends through the hole.
7. Secure the fixture with the lock washer and nut. Tighten with pliers or wrench.
8. Re-install the LED board.
